

CMS

MARITIME

Marina Division

Our seamless integration with associated businesses, enables us to provide the highest standards of service for the marina industry, including:

- Marina purchase and development.
- Construction & project management.
- New Marina builds, consultation with full management.
- Refurbishment of marine complexes
- Interior design consultation and re-fitting.
- Marina management and sales.
- Repair and maintenance facilities.

We have experience in almost every type and size of facility:

- Stand-alone, full-service yacht marinas.
- The marina village, a marina fully integrated with commercial and/or residential property.
- The mega-project marina.
- Marinas within docks and lagoons, and behind lock gates and flap-gates.
- Coastal 'yachting stations', marinas with limited services designed primarily to support cruising yachts and the growth of nautical tourism.
- The marina lying at the heart of an urban waterfront regeneration project.

CMS Maritime provides a wide range of services to the Hotel & Resorts, Corporate Hospitality, Yachts and Private Estate industries. It is our philosophy to:

- Provide safe and convenient berths for all weather conditions.
- Design the marina and its waterfront property as an integrated project.
- Create a superior and well-landscaped environment for yachtsmen and users of the waterfront.
- Attract and retain the best quality yachts and retail activities.
- Animate the marina and draw visitors to the waterfront, thus maximizing property values.

Get the design right and the marina will attract the activities and 'life-style' which will add significant value to the project as a whole.

Get it wrong and the marina will be a lifeless, nautical 'parking lot'.
